Amanuel Daniel

Location: Ethiopia, Addis Ababa, Tafo

https://www.linkedin.com/in/amanuel-daniel-4573b1309/

Personal Summary

A highly motivated and skilled 4th-year Software Engineering student at Haramaya University, with a talent for designing intuitive and user-friendly front-end applications and the ability to develop robust back-end systems using Node.js technologies. Proficient in a wide range of programming languages and frameworks, including Python, Java, Flutter, React, Node.js, Express, PHP, and MongoDB. Eager to contribute to dynamic development teams and pursue a career in software engineering.
