AMANUEL DANIEL

Software Engineer

Personal

Software Engineer

Location: Addis Ababa

Nationality: Ethiopian

Tel: +251-919755719

Email:
2000amandanm@gmail.com

Hobby

➢ Problem solving

➢ Foot Ball

➢ Movies

➢ Chess

Education　Background

2020 ~ 2025 Software Engineering at Haramaya University (undergraduate)

Experience

➢ **Academic Foundations:** I've completed courses in computer science fundamentals, such as data structures, algorithms, programming languages, software engineering principles, databases, networking, operating systems, and computer architecture.

➢ **Programming Proficiency:** I have a strong command of programming languages such as Python, Java, C++, and gained experience with scripting languages like JavaScript, Ruby, or Shell scripting.

➢ **Software Development Lifecycle:** I am familiar with the software development lifecycle, including requirements gathering, design, implementation, testing, deployment, and maintenance.

➢ **Project Work:** I've completed various programming projects either individually or as part of a team. These projects include software applications, web development projects, mobile apps.

Professional Skill

Throughout my fourth year of software engineering, I have extensively developed my professional skills through active participation in collaborative projects, where I effectively communicated and collaborated with team members, demonstrating proficiency in programming languages such as Python, Java, and C++, while also refining my abilities in problem-solving, project management, and embracing software development methodologies to deliver high-quality software solutions.

Self-evaluation

I am very optimistic and cheerful, I can quickly integrate into the work environment. I am a person who loves my job, careful work and strong sense of responsibility. I can actively communicate with my friends in daily work to improve work efficiency. Communication is my strength.
