Amanuel Daniel: Software Engineer

Tele： +251-919755719   G-mail   2000amandanm@gmail.com

Educational Level

2018—2023   Haramaya University   Software Engineering Bachelor

Work Experience

2023 -- Current

Full-Stack Developer, at Ethiopian Artificial Intelligence Center

Junior Software Developer
- Developed and maintained web applications using React.js and TypeScript, ensuring responsive design and high performance.
- Collaborated with cross-functional teams to gather requirements and deliver features on time.
- Implemented client-side routing and server-side rendering using NextJS.
- Utilized Git for version control and participated in code reviews to maintain code quality.
- Integrated third-party APIs to enhance application functionality.

Frontend Developer
- Assisted in the development of interactive user interfaces with React.js, focusing on user experience.
- Worked closely with senior developers to debug and optimize code.
- Contributed to the migration of legacy code to modern JavaScript frameworks.

Skills

- Programming Languages: JavaScript, TypeScript, Java, PHP, Python, Dart
- Frameworks & Libraries: React.js, NextJS, Flutter, Laravel, Express.js
- Other: Fluent in English, strong communication skills, ability to work in a team and independently

Self-evaluation

As a dedicated and detail-oriented Junior Software Engineer, I have developed strong problem-solving skills and a keen ability to learn and adapt quickly. My passion for coding and continuous improvement drives me to deliver high-quality, efficient solutions. I excel in collaborative environments and am committed to contributing to team success.

COVER LETTER

Dear Hiring Manager,

I am writing to express my interest in freelance opportunities as a Software Engineer. With over three years of hands-on experience in front-end development, particularly with React.js and Next.js, I am confident in my ability to contribute effectively to diverse projects.

I have developed and maintained multiple web applications that prioritize user experience and efficiency. My background includes collaborating with cross-functional teams to ensure the timely delivery of high-quality features. I am particularly drawn to freelance opportunities that allow for remote work, aligning perfectly with my professional aspirations.

In my previous roles, I honed my skills in developing responsive web applications and integrating third-party APIs. This experience has equipped me with a strong foundation in modern web development practices and the ability to quickly adapt to new technologies.

I am eager to bring my technical skills, collaborative spirit, and dedication to continuous improvement to new projects. Thank you for considering my application. I look forward to the possibility of discussing how my background and skills can align with your needs.

Sincerely,

Amanuel Daniel
